

A WORD FROM THE PUBLISHER

Everyone of us, from boyhood on, recognized the NRA (National Rifle Association) as the foremost organization representing the rights of gun owners. Until the last few decades, they provided many benefits for membership. Their training programs and publications were top of the line.

However, they began to shy away from the real purpose for the Second Amendment — the prevention of our government being taken over from within by the election of the tribe now in office. Wayne LaPierre would rather garner another shooting range in Las Vegas, NV than advise the membership to vote the leftist skunk Harry Reid, from office.

In the state of Arizona, the NRA is supporting John McCain, who has never been a friend of the Second Amendment. This wishy/washy old fool needs to retire and spend all the land

fraud money (Kemper Marley) he got by marrying Arizona's biggest liquor distributor heir.

During the last few decades there has been an effort by a few decent NRA directors to oust the agents provocateur and replace them with loyal Americans. But, the evil forces were so well entrenched their efforts failed.

Has LaPierre been paid off from NWO forces to help them disarm America? We'll probably never know. However, like a lot of rats in our ship of state, they are starting to reveal themselves.

Stay alert to their nefarious activities and if you want to join or help a real, pro-gun organization, then do so through the GOA (Gun Owners of American).
